

ALLIED FX COMPANY PTY. LTD.

GET IT OFF

SAFETY DATA SHEET

Section 1 - Identification: Product identifier and chemical identity

Product Names: AFTERGLOW 'GET IT OFF'

Product Identification: Pale purple fluid.

Product contains: Hydrocarbon blend.

Product Use: Theatrical make-up adhesive remover.

Product Manufacturer: Allied FX Company Pty. Ltd., 9/810-818 Princes Highway, Springvale Victoria 3171, Australia.

EMERGENCY NUMBER CALL +61417059575

Section 2 – Hazard(s) identification

This material is cosmetic grade and is not classified as Dangerous Goods for transport purposes.

Not classified as Dangerous Goods.

Classification - Hazardous

Signal Word - Danger

Hazard Statements

Combustible liquid (Flammable Liquid – Category 4)

Avoid breathing spray.

Causes eye irritation.

May cause drowsiness or dizziness.

May be fatal if swallowed and enters airways.

Precautionary Statements

Prevention

Keep away from open flames.

In case of fire: Use alcohol resistant foam or fine water spray for extinction.

Do not eat, drink or smoke when using this product.

Do not breathe vapors.

Use in a well-ventilated area.

Response

In case of fire: Use dry chemical, CO₂, water spray or fire fighting foam to extinguish.

NOT induce vomiting. Rinse mouth.

If in eye: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing.

If skin or eye irritation persists, get medical attention.

If inhaled: Remove person to fresh air and keep comfortable for breathing.

Get medical attention if you feel unwell.

Section 3 - Composition and information on ingredients

Component by weight:

-Isoparaffinic Hydrocarbon 99% CAS# 64742-48-9/90622-58-5

Other components by weight:

-Solids and pigments 1%

All ingredients are cosmetic grade.

Section 4 - First-aid measures

This is a cosmetic product manufactured for skin application, and presents no major danger especially in the small quantities used.

Swallowed: Immediately call a POISON CENTER or physician. Do NOT induce vomiting. Give lots of water to drink. Never give anything by mouth to an unconscious person.

Eyes: Immediately flush with plenty of water. Seek medical attention promptly should irritation persists or loss of vision occur.

Skin: Products are formulated for skin contact, but should spillage occur, immediately remove contaminated clothing and wipe skin clean. Wash skin with oily cleansers intended for such purpose and rinse with water. Launder contaminated clothing before re-use.

Inhaled: Persons inhaling vapour may exhibit signs of respiratory irritation, dizziness, nausea or headache. Remove promptly to fresh air and seek immediate medical attention. Treat unconsciousness by placing the person in the coma position. Apply artificial respiration if breathing stops.

First Aid Facilities: Safety showers, eye wash stations and First Aid kits.

Advice to Doctor: Treat symptomatically.

Section 5 - Fire-fighting measures

Suitable Extinguishing Media: Dry chemical or carbon dioxide should be used.

Specific Hazards: Burning can produce carbon monoxide and/or carbon dioxide.

Special protective precautions and equipment for Fire Fighters: Combustible liquid. Contain spill. Full fire kit and breathing apparatus is required.

Section 6 - Accidental release measures

Personal Precautions: Ventilate area.

Environmental Precautions: Using gloves, contain spill with absorbent materials and collect for disposal.

Disposal Method: Disposal by methods as permitted by local authority guidelines. Do not empty into drain.

Section 7 - Handling and storage, including how the chemical may be safely used

Handling: Vapour is heavier than air and may travel along the ground: distant ignition is possible. Use in well ventilated area, away from source of ignition. Do not eat, drink or smoke whilst using.

Storage: Store in tightly closed containers in a cool dry place abiding by all local precautions. Do not smoke in storage area.

Section 8 - Exposure controls and personal protection

Avoid eye contact. Emergency eye wash and safety showers should be available in the vicinity of use. Provide adequate ventilation during use. Wash hands before and after use. Remove and launder contaminated clothing. Do not eat, drink or smoke in areas of use.

Section 9 - Physical and chemical properties

Appearance:	Pale purple fluid.
Odour:	Very Mild Aromatic.
pH:	No Data Available.
Boiling Point:	183 - 208° Celsius.
Flash point:	63° Celsius (ASYM D-93)
Auto-ignition temperature:	222° Celsius.
Upper/lower flammability or explosive limits:	Not Data Available.
Solubility:	Insoluble in water.
Viscosity range:	Not Data Available.

Section 10 - Stability and reactivity

Chemical Stability:	Stable under normal conditions.
Incompatible Materials:	Oxidizing agents.
Conditions to Avoid:	Exposure to extreme heat or flame.
Hazardous Decomposition Products:	Burning can produce carbon dioxide and/or carbon monoxide.
Hazardous Polymerization:	Will not occur.

Section 11 - Toxicological information

Effects: Acute

Swallowed:	May be fatal if swallowed and enters airways, though unlikely in the industrial setting.
Eyes:	Vapours may irritate the eyes. Liquid and mists may severely irritate or damage the eyes.
Skin:	Contact with skin may result in irritation and redness.
Inhaled:	Vapour is moderately irritating to mucous membranes and respiratory tract.

Effects: Chronic

Aspiration may cause pulmonary edema and pneumonitis. Direct contact with eyes may cause temporary irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Defatting of the skin. This product is not expected to cause reproductive or developmental effects. Deliberate inhalation of the vapour is a known occupational risk.

Special Remarks:

This product is a specialist cosmetic intended for professional use only. It contains ingredients that may be irritating for some individuals. Throughout use, trained professionals should monitor the on-going health of the client's skin. Should any sign of skin irritation occur, discontinue use immediately. Removal from skin should be with gentle professional cleansers intended for such purpose.

Section 12 - Ecological information

Ecotoxicity: Aquatic Toxicity.

Products of Biodegradation: Hazardous degradation is not likely.

Toxicity of the Products of Biodegradation: Expected to be toxic to aquatic organisms.

Mobility: This product is immiscible with water and will spread on the water surface.

Section 13 - Disposal considerations

Small quantities should be disposed of in accordance with local waste authorities. Large quantities may be suitable for incineration by approved agent under controlled conditions if permitted by local authorities. Product must be contained and should not be disposed off in sewerage systems, drains or waterways.

Section 14 - Transport information

Proper Shipping Name:	Isoparaffins
UN Number:	No Data Available
DG Class:	No Data Available
Subsidiary Risk:	None
Packing Group:	No Data Available
Hazchem:	No Data Available
Marine Pollutant:	No Data Available
Special Transport Precautions:	None

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

Not classified as Dangerous Goods by the criteria of the International Maritime Goods Code (IMDG) for transport by sea.

Section 15 - Regulatory information

No extra information.

Section 16 - Any other relevant information

Reason for Issue:	Reformat and review
Authorised by:	Director of Allied FX Company Pty. Ltd.
Date of Issue:	February, 2024
Review/Expiry Date:	February, 2029
